

## THE CHRIST SOCIETY

### Chapter 1

**"To become one with a thing is to become it. So..we know that to become one with God is to become God. The spiritual & scientific process of doing so is our primary concern here."**

**-JESUSGANG ALI-**

### 13 Declarations

1. We declare that all praises are due to Allah(God), whom we call The Supreme Intelligence..who is the grand architect of the universe & the designer of this reality..
2. We declare that Christ is our prophet & the messiah sent by God to destroy religion & to allow mankind to interface with God directly..
3. The introduction of Christ into this reality broke the stranglehold all previous spiritual law upon mankind & makes anyone who receives His spirit eligible to commune with God regardless of race,class or culture.
4. We greet all true Christians,Hebrews, Muslims (especially the Nation of Islam), & Rastafarians as family & will never close our hearts or minds to anyone earnestly seeking to commune with God & His people.
5. We declare the Torah (Old Testament), the Gospels (New Testament), & The Qur'an to be holy books and we reject ALL previous interpretations of them given to us by others, as each member of our faith is required to read the entirety of each text and interpret them for themselves.
6. We declare this new faith because the leadership of ALL organized religions has become corrupt, thereby forcing our people to seek and find God themselves with no interference from those who use religion as a tool of oppression & slavery.
7. We declare the truth of the scriptures. We believe in the Angels, the Rapture & in the day of judgement when all who have lived on earth will be called to account for their individual actions in this reality before God. We also declare that each individual faces his/her creator.. alone.
8. We declare Christianity,Islam & Judaism to be separate branches of a single faith & we reject any attempt by any religious leader or entity to divide our people based on the differences within these faiths. We will worship, work,study,learn,build, & evolve as one people. Always.
9. We reject the european representation & characterization of Yeshua The Christ and declare him to be a black man, and that the 12 tribes of Israel are also black. These facts do not,however, mean that holiness is connected to race. It is possible for anyone to be free from spiritual bondage, though, it is harder for some than others.

10. We declare that this reality is a water-based holographic simulation designed by God to test our souls that we may be purified for the life in heaven promised to us.

11. It is the sworn duty of all members of our faith to fight all religious, racial, political, & legal oppression wherever we find it in our communities, with whatever means are necessary to bring about justice and peace for our people. We are instructed never to be the aggressor in word or in action, but to defend our families and communities to the death if it should be required. This is an ancient law of the universe & the right of every breathing soul.

12. We ask that the women of our faith dress modestly as they are our most precious resource. The black woman is the mother of all human life & each woman is the gateway between the spirit realm and the physical one. Therefore we believe a man should have to earn the right to gaze upon a woman's full form. It is a pleasure reserved for her king.

13. It is the duty of every member of our faith to protect the children of our communities & it is the sworn duty of every male amongst our ranks to protect the women & children of our communities.

*(If you believe in these tenets & would like to join our ranks you need only to write the Confession of Faith on a piece of paper then read it aloud. You must wash your hands before and after reading it aloud)*

#### **CONFESSION OF FAITH:**

All praises be to Allah(God), The Supreme Intelligence, grand architect of the multiverse, designer of this reality. Peace be upon The Messiah through whom the Gospels came and peace be upon all of the prophets through whom the word of God came to mankind. I call for the Holy Spirit of The Messiah to possess me that I may be a vessel of love and light for all mankind & vow to serve God and His people in this realm until I pass into the next. Amen.

*(After you have confessed the faith you need only to arrange to be baptized. If that is not an option you have the right to baptize yourself by speaking the confession of faith while in contact with water, even if it is only placing your hands in it.)*

"If you have confessed the faith I would like to welcome you to the family of Christ and to your new freedom. You are hereby released from any and all spiritual bondage, all spiritual agreements, and all energies associated with sin in your past. You are now free to evolve into a new creature. You are free to become love itself and I urge you to be possessed by it. Always remember: In your daily life, read the scriptures and love the people."

-JESUSGANG ALI-

OUR CORE SCRIPTURE:

JOHN 15:13

The mission of our faith is to love, protect and serve that which God has created. This means loving, protecting and serving the earth, and each other above all else.

## **Chapter 2: Our Method of Prayer**

In our society there are 3 types of prayer.

Morning Prayer: Upon rising in the morning find a private place to kneel before ALLAH(God). We kneel in what could be described as a traditional Islamic prayer position on both knees, leaned forward (elbows touching the ground) with our faces toward the earth and our palms open to the heavens. The difference, however, is that while kneeling we cross our arms in an 'X' configuration with our palms open toward the heavens. This 'X' is an ancient symbol of our ancestors which represents the eternal life we have been granted from ALLAH(God) and it predates any religion established in recorded history. In fact, our use of it is an acknowledgement that our relationship with creator of the universe is encoded in our DNA and transcends all religion.

When in proper position we say:

"ALL PRAISES BE TO ALLAH, THE SUPREME INTELLIGENCE,

GRAND ARCHITECT OF THE MULTIVERSE,

DESIGNER OF THIS WATER-BASED HOLOGRAPHIC REALITY..AMEEN.."

We then rise to our feet, heads bowed, palms still turned up towards the heavens, and repeat the simple phrase "ALLAHU AKBAR" (which means "God Is Great") seven times. U may also sing it as a praise offering if u so choose. It is something I often do.

We do our best to be faithful in the practice of Morning Prayer because it is the only time in life we will ever kneel. A true member of our society refuses to bow or kneel to any authority besides ALLAH(God) and our kneeling to Him symbolizes our acknowledgement of His supreme power and no one else's.

Prayer While In The World:

As we have stated our brains are quantum computers. These computers download information from The Supreme Intelligence via light code transmissions. Our brains receive these transmissions through our pineal gland. This system of communicating with ALLAH can be compared to the way a computer or phone receives a wifi signal. In the bible this signal is referred to as The Holy Ghost. We must master the process of receiving this information as we go about our daily functions. Just as a computer or phone performs various tasks while maintaining constant wireless connection to the router that emanates the signal, we must be able to download information from The Supreme Intelligence in the same way while performing different functions in our lives. We call this 'Prayer While In The World'.

## **Chapter 3: Divine Design**

If ALLAH(God) is the ocean, then our souls are rain drops. Made of the same material but vastly different proportions and levels of power. A rain drop begins in the ocean, evaporates into vapor, rises to become part of a cloud, condenses, becomes rain and falls to earth. Wherever the rain drop falls to earth it begins to make its way back to the ocean. There are an endless amount of paths a rain drop can take back to the ocean but, no matter what, it will return. Your soul is like the rain drop. You are a small piece of of ALLAH(God) that He broke off and sent down to earth. This is why we don't take sex lightly. The act itself is a spiritual ritual that calls down a soul from the spirit realm into this reality to inhabit a body. The ability to create life is a responsibility of the most serious nature.

Our bodies are the most sophisticated machines on earth. There is no machine or organism as perfectly designed in this realm of existence. Your body is simply an avatar, or spaceship if u will, that your soul is given to operate as it travels through the space-time continuum. Much like the way one controls the characters' movements in a video game, you are a spirit operating your physical being. This is why the bible refers to our bodies as temples. In hebrew society the temple was inhabited by the spirit of ALLAH(God) and maintained by those dedicated to serving Him. we must be sure to maintain our bodies with the same care as we would a temple that housed the spirit of ALLAH(God). This is not a metaphor, though. Your body is quite literally a temple that houses the spirit of ALLAH(God). Behave accordingly.

#### **Chapter 4: Observance of Ramadan**

We observe the holy month of Ramadan with our Muslim brothers and sisters every year. We fast from sunrise to sunset (roughly 6am to 6pm) everyday for 30 days beginning at exactly the same time and date of Ramadan. However, the rules of our fast differ slightly in that we are permitted to drink water and consume small amounts of bread during the day. The ancient ones embedded the month of Ramadan into the fabric of Islam because our bodies require a month of physical/spritual purification and healing once a year as a matter of maintenance. Those who adhere to it will balance out the energies and toxins taken in throughout the previous year. We do not eat pork at any time, unless poverty or extreme circumstance require us to do so to live another day. It isn't a natural part of the diet that best suits our people. It is a meat meant for slaves who do not plan to walk the earth for very long.

#### **Chapter 5: Reject Death**

We reject the European understanding of the space-time continuum and we reject the commonly accepted view of the aging process. From the time we are born we are forced to accept the ideas of aging and death. It is told to us in every holy book that all men must age and die at a certain rate. Once a young mind accepts this as a reality the mind itself signals to the universe to begin the aging process. We reject the notion that a year on earth means that our bodies/minds age a year. A birthday simply means you have traveled a full circle around the sun one more time. It does not mean you are a year older. Your mind decides this, and your body follows your mind.

#### **Chapter 6: Ganja & Guarding Our Temples**

We declare marijuana (ganja) to be a holy sacrament. It is a naturally occurring medicine given to us by ALLAH(God). We call for its legalization globally. We know the information taught to the generations before

us in western society about its properties, effects and benefits are lies. We know that cannabis seed oil cures cancer. We know that it helps with chronic pain and with Post Traumatic Stress Disorder. We also know it to be far healthier for our bodies than anything the pharmaceutical companies poison us with under the guise of treatment. For millions of years our people have not only smoked it (properly) for spiritual purposes, but our women have also cooked with it in various ways, even boiling it into a tea-like drink that soothes muscle aches and boosts the immune system. These methods are widely available to those who wish to study them seriously.

We must, however, also be conscious of the unhealthy ways our young people have been taught to abuse ganja. While it can be smoked in dried plant form the practice of wrapping it inside processed tobacco (blunts) is not healthy for us. This is an incorrect use of the holy medicine given to us. It is supposed to be used after reading the scriptures or prayer as we meditate upon and/or discuss matters of spiritual significance. While using the holy sacrament you must be careful to concentrate on receiving thought transmissions from The Supreme Intelligence, just as a computer downloads information from the Internet. Resist the natural urge to create thought during this process. Ganja is to be used as a tool to open one's mind to the direct line of communication with ALLAH (God) while opening pathways outside of linear thought. This is why many creative people find it helpful when used recreationally.

We greatly discourage the consumption of liquor and beer. Our enemies have widely circulated the claim that consuming alcohol in moderate amounts is healthy and leads to longer life. However, only 2% of the studies done by the American Medical Association involve the black community at all. It has actually been proven that our bodies are not suited for such practices. A study done specifically on the black community shows black people who don't drink at all live the longest. You must always remember that the information you receive about yourself in the United States is not based on a study of you or your culture. They teach you what is true for THEM, for you have never been given any choice but to be more like them to achieve success. Black women are getting dementia, brain tumors, and all types of cancers in record numbers because they put perms in their hair. Think about it. If you were to drink the chemicals in a perm you would die. It is poison. What would cause a black woman to heat her scalp so that the pores in her head were wide open, then to soak a poisonous chemical into those pores? This exposes the area closest to your brain to large amounts of deadly chemicals. We know this practice of perming one's hair started as an attempt by black women to make their hair look more like a white woman's. Imagine the depths of self hate one has to feel in order to be willing to poison oneself just to assimilate into an enemy culture. We must stop this. Not because it matters whether a woman's hair is straight or not, but because it isn't healthy for them. They are our most precious resource.

### **Chapter 7: #666 We Fear No Devil**

We formally reclaim the number 666 from the enemy who tampered with the bible, and taught us to fear the so-called 'devil'. If one examines the bible closely, it is obvious that satan is subjugated and taking orders from ALLAH (God). I have always been struck by the amount of deference satan showed to ALLAH (God) as he waited for an audience with the Supreme Intelligence in the Book of Job. You will notice that he expressed his desire to attack Job but was only able to affect Job's reality in ways that had been pre-approved by ALLAH (God). Along with many other examples in the scriptures, this indicates that satan or 'the devil' is under the command of ALLAH (God). As the children of ALLAH (God), we have been given dominion over this dimension as long as we are in proper spiritual condition. This means the devil and his demons are subject to our authority. I have found that ALL of the sciences and spiritual belief systems church leaders call 'witchcraft' and/or 'demonic' are from black cultures. Every single one. This is part of the process of separating us from our original systems of thought and understanding of the universe. Why do

you think you are taught not to drink, but taught that Christ's first miracle on earth was to turn water into wine? They tell you fear of God is the beginning of wisdom, but that God did not give us a spirit of fear. The holy book says that it is wrong to lend money at interest while encouraging you to go into debt via student loans, credit cards, mortgages, and car loans as a way of life. They tell you the meek shall inherit the earth while you are exploited and manipulated daily by those who gained power over you by force. This schizophrenia is purposely embedded in every Christian and fostered along the way by church leaders so that the congregation is forever partly self-righteous and partly self-loathing. This combination of pride and self-hate is essential to keeping a slave in bondage. Free yourself of the old ways. The shame you have always felt toward yourself is false! It was forced upon your psyche by our enemy when you were too young to know better. It is the fault of our parents for turning us over to their oppressors to be educated.

### **Chapter 8: Polarities**

You must understand that our very reality itself is generated by the friction created by polarities. Put simply, our entire reality is based upon good & evil, up & down (gravity), left & right, dark & light, life & death, hot & cold, etcetera. It isn't based upon the existence of these polarities alone, but upon the friction created by the two. The universe begins attacking a living being, of any species, from the time it comes into existence. On a mass scale, hardships placed upon a living organism by its environment causes it to evolve in order to survive. An animal suddenly subjected to a drop in temperature in its natural environment will begin to produce babies with more hair to combat the weather. Several generations later, the animals being born will have much more hair because the hardship of cold weather introduced by the environment caused its DNA to design a tool, or weapon to address it. Humanity itself is pushed forward and backward by the struggle between good & evil men, tradition & innovation. Architecture is a response to our need for protection from the elements. It is the same for every science studied by man today. This is why the bible is correct when it states that 'all things work together for the good of those who love him.' That scripture is an expression of a law embedded into the fabric of the universe long before there were bibles, Qurans, torahs, temples, churches or mosques. It is ancient law and we as a people have always known it.

### **Chapter 9: We Are the True Bibles**

The information contained within the bible and the Quran was revealed to the prophets, not created by them. The information was revealed to them by ancient beings. For a thing to be revealed it must first exist in a cloaked or hidden form. It was hidden by darkness. That darkness was within the dark skin of the beings who revealed the holy books to 'mankind'. These beings are the ancestors of the dark-skinned people of today's world. Prior to being revealed to the prophets the information contained within the Torah, The Gospels (Injeel), and the Quran had been encoded in our DNA for millions of years. There had never been a need to write in a book what we knew by nature and design. It was only after the fall of man's moral structure, and the subsequent lowering of our collective consciousness that it became necessary to write down and recite the natural laws of the universe and the spirit realm. Think of how primitive and backwards one would have to be to need a book to remind them not to kill, steal, rape, lie or oppress the poor and weak. How often must mankind have lost sight of who ALLAH (God) is for the Quran to need to say over and over there is one and no other? Only primitive savages without knowledge of the ancient ways could need this. This is a subject I will write more of in later books, as it is a very deep subject within itself and deserves particular attention. In the mean time I would humbly refer you to the writings of Elijah Muhammad and Credo Mutwa who have very interesting and rare knowledge on the subjects of the ancient sciences as they pertain to the scriptures. I would also urge you to read the books taken out of the bible. You must always remember that the bible was not written by a single author. It was compiled from separate books already in

existence, and edited by a people who have always actively sought oppress dark skinned people of earth. The original bible contained references to reincarnation as well as a very different description of Yeshua that most Christians of today know. The books they decided were dangerous to the establishment were burned in 312 A.D. by the Council of Nicea. Many elite families hid the original version and worship in that way today. This is why they have been able to establish bloodlines that build kingdoms in this reality for hundreds of years at a time. They have access to instructions that are hidden from the average church goer. We are fortunate to live in a time where we can search freely for the knowledge that we seek and I encourage you to do so. One door will lead you to the next door.

### **Chapter 10: Gods United**

No longer will we allow ourselves to be divided by faith, complexion, educational or economic status. It is absolutely necessary that a new crop of ministers rise within every faith who understand that we have been manipulated in this way by design for hundreds of years now. Every black person reading this has heard a black Christian slander the Muslim faith or a Muslim speak ill of Christianity.. This separation amongst us was purposely embedded in the Christianity forced upon the oppressed people of earth. It was done to promote slavery and keep us divided from the faith we practiced before. We were baptized by those who killed, raped, tortured and monetized us in the name of a white Christ.

### **AN EXAMPLE OF THIS EVIL**

Below is a letter written in 1883 by [King Leopold II](#) of Belgium to Belgian Christian missionaries being sent to Congo. These Christian missionaries would eventually become the spearhead of Belgian colonialism only to be followed by Belgian traders and lastly the Belgian army.

*"Reverends, Fathers and Dear Compatriots:*

*The task that is given to fulfill is very delicate and requires much tact. You will go certainly to evangelize, but your evangelization must inspire above all Belgium interests. Your principal objective in our mission in the Congo is never to teach the niggers to know God, this they know already. They speak and submit to a Mungu, one Nzambi, one Nzakomba, and what else I don't know.*

*They know that to kill, to sleep with someone else's wife, to lie and to insult is bad. Have courage to admit it; you are not going to teach them what they know already. Your essential role is to facilitate the task of administrators and industrials, which means you will go to interpret the gospel in the way it will be the best to protect your interests in that part of the world. For these things, you have to keep watch on*

*dis-interesting our savages from the richness that is plenty [in their underground. To avoid that, they get interested in it, and make you murderous] competition and dream one day to overthrow you.*

*Your knowledge of the gospel will allow you to find texts ordering, and encouraging your followers to love poverty, like “Happier are the poor because they will inherit the heaven” and, “It’s very difficult for the rich to enter the kingdom of God.” You have to detach from them and make them disrespect everything which gives courage to affront us. I make reference to their Mystic System and their war fetish – warfare protection – which they pretend not to want to abandon, and you must do everything in your power to make it disappear.*

*Your action will be directed essentially to the younger ones, for they won’t revolt when the recommendation of the priest is contradictory to their parent’s teachings. The children have to learn to obey what the missionary recommends, who is the father of their soul. You must singularly insist on their total submission and obedience, avoid developing the spirit in the schools, teach students to read and not to reason.*

*There, dear patriots, are some of the principles that you must apply. You will find many other books, which will be given to you at the end of this conference. Evangelize the niggers so that they stay forever in submission to the White colonialists, so they never revolt against the restraints they are undergoing. Recite every day – “Happy are those who are weeping because the kingdom of God is for them.”*

*(a second letter continues his instructions)*

*“Convert always the Blacks by using the whip. Keep their women in nine months of submission to work freely for us. Force them to pay you in sign of recognition-goats, chicken or eggs-every time you visit their villages. And make sure that niggers never become rich. Sing every day that it’s impossible for the rich to enter heaven. Make them pay tax each week at Sunday mass.*

*Use the money supposed for the poor, to build flourishing business centres. Institute a confessional system, which allows you to be good detectives denouncing any Black that has a different consciousness contrary to that of the decision-maker.*

*Teach the niggers to forget their heroes and to adore only ours. Never present a chair to a Black that comes to visit you. Don't give him more than one cigarette.*

*Never invite him for dinner even if he gives you a chicken every time you arrive at his house."*

"The above speech which shows the real intention of the Christian missionary journey in Africa was exposed to the world by Mr. Moukouani Muikwani Bukoko, born in the Congo in 1915, and who in 1935 while working in the Congo, bought a second hand Bible from a Belgian priest who forgot the speech in the Bible." – Dr.

Chiedozie Okoro

If your pastor's teaching falls in line with what you see in these letters he is a devil and an agent of satan. He is not teaching you to become more like God. Flee from the congregation of such ministers. They will keep your family broke and hopeful for generations.

Please understand that the forces oppressing us are of many faiths and denominations but always united. They established institutions of learning where they can study and debate matters of spiritual importance. These institutions are separate from the ones they use to protect their societies and retain their superior military strength. Security is not a religious issue.

If this life is a war between good and evil, and the enemy is upon us, what fool would ask the man next to him what religion he practiced? What kind of Christianity or Islam produces a person who can accept slavery and oppression?

### **Chapter 11: The Excuse Of The Cowards Amongst Us**

Matthew 5:39

"But I say unto you, That ye resist not evil: but whosoever shall smite thee on thy right cheek, turn to him the other also."

I fear that many of my Christian brothers and sisters use the forgiveness of Christ to excuse their cowardice in the face of our oppressors. They often site Matthew 5:39 when the subject of our racial oppression comes up and I think it important to do away with this misuse of the scripture as soon as possible. At the time of the statement Christ was making every effort to conceal Himself. He knew the people had begun to love him for

his teachings and his healing of the sick. Think of the 5,000 men plus their wives and children that he fed with the 5 fish. If one of the disciples had attacked an officer of the law, the people following Christ around would have attacked officers as well. A violent crowd that size, attacking military officers, would be construed as an insurrection and would have led to the Roman army slaughtering the hebrew nation. The journey to Jerusalem, and His subsequent crucifixion would have been stopped in its tracks. Therefore, Christ instructed his disciples to be nonviolent for that specific time. The plan ALLAH(God) had laid out called for restraint until the crucifixion was complete. The proof of this is evident in Luke 22:36.

Luke 22:36

Then said he unto them, But now, he that hath a purse, let him take *it*, and likewise *his* scrip: and he that hath no sword, let him sell his garment, and buy one.

Read the text for yourself and you will see that the last thing Christ tells the disciples before he leaves earth is to get a sword. He even went so far as to say that if they did not have money to purchase swords, they were to sell their coats to get the money. When faced with a choice between the two, It was more important to Christ that we be armed than to be warm. The scriptures had been fulfilled. The time for turning the other cheek ended with the crucifixion. There is nothing in any holy book that tells a person to accept oppression. It is only the false translations and interpretations of these scriptures forced upon us by our enemies that causes the problem. I urge my Christian brothers to reject the cowardice our enemies have embedded within your faith. The time for turning the other cheek is over.

We must unite and we must fight. We must establish our own institutions of learning to argue dogma and it must be separate from the institutions we establish to defend ourselves. We can settle our scriptural and spiritual differences in a different arena after we have made it so they no longer kill our children in the streets without repercussions.

### **Chapter 12: Direct Energy Weapons**

Our greatest weapon is prayer. I do not mean prayer in the passive sense. I mean our minds are direct energy weapons. When our thoughts are combined and focused on a single target, there is no greater weapon in the universe. The more we as a people desire a thing, the more expensive it becomes in the market place. The power of group thought is a scientifically documented phenomenon. Religion and/or spirituality aside, if enough of us concentrate our intent on one thing, reality itself will begin to bend to our will. When coupled with our direct interface with the Supreme Intelligence, it is the most dangerous weapon in the universe. If enough of us pray or meditate on the death of one person the universe itself will eventually eliminate that person. If enough of us pray or meditate on bringing any one thing into reality the universe will bend to our will, and what we pray for will manifest itself before our very eyes. We must train our minds to sustain such concentration over extended periods of time, allowing us to more easily manipulate the fabric of this reality. I will write more to you in this subject later as well.

### **Chapter 13: Guarding The Most Sacred**

There are many lessons that we teach which can only be taught verbally, from person to person. This is because the enemy has always shown great skill in taking our sacred texts and distorting them. When the great pyramids were invaded, the enemy found the hieroglyphs (which tell the history of each dynasty and maps out the spirit realm) and wrote themselves into the story. They actually carved themselves into our ancient history on the walls. The same tactic was applied to the gospels by Europeans posing as jews. The

second gospel of John is known by the enlightened of us to be fraudulently inserted. Our society is forever vigilant in the defense of our most sacred lessons. Audio recordings will be made and distributed throughout our underground networks.

#### **Chapter 14: The Weak, The Poor, & The Children**

We will accept no oppression of the weak of any form from any member of our society. If it becomes known to us that any member is earning income through practices that exploit the poor or the weak on the basis of any classification (race,gender,religion,etc.) they will be immediately expelled.

If it becomes known to us that any member of our society has violated a woman or a child the penalty is death. We view the human family as a large living organism and we are each an individual cell within this body. Every type of cell has its own specific function that fits within the larger system. Those who would violate a child represent cancer cells within this body. I say this because a cancer cell eats the healthy cell next to it, turns it into a cancer cell,then spits it back out. This is how cancer spreads throughout the body. Those who violate children have the same effect. When one looks into their individual backgrounds, one can always find evidence of the offender having been abused themselves. Scientists have found that serious trauma changes the DNA of its victims. These DNA changes can even be passed on genetically. The abuser, as a cancer cell, creates another potential abuser in the victim. These cancer cells must therefore be cut out of the human body swiftly and permanently. There is no debate on this subject amongst us.

#### **Chapter 15: Love In Action**

It is required that each member of our society help at least one person per day in some way. This is the debt we owe for each day we rise and experience Allah(God)'s creation. Be mindful of this and do not forget. It is the cornerstone of all spiritual law. Love is a verb. It is imperative that we are actively loving the people and the world around us on a daily basis. When a person presents a new spiritual system or idea, ask yourself if you can find the love in it. That is the litmus test for all of these spiritual matters silly men with silly degrees argue about in their silly churches,temples,mosques, and schools. If you cannot find the active love within the spiritual paradigm it is FALSE and evil.

#### **Chapter 16: Structure & Directives**

It is not required at any time that any member of our society belong to any organized religious entity. The goal of our faith is to make each member an individual autonomous agent for good in their families and communities. We will establish a global underground network that will allow our members to live,love,work,travel and play amongst those who are the highest spiritual caliber. We will do business with one another. If one of us is in need of temporary shelter one of us will offer lodging and protection. This is to be a covert army of Allah(God) with no leader and a base of knowledge that is updating itself constantly. We must be able to organize individual actions, execute, and return to our communities to continue building our individual safe havens for our families and society members. We gather together to commune and worship together when we wish but we will never have a church building or headquarters of any kind. There will be no list of members other than the one held in secret by a selected member of our society. We will identify one another through our agreed upon signs,symbols, and handshakes so that no one will ever know exactly how many of us there are. We are building an invisible army capable of moving throughout any society as we are unconcerned with visible signs of allegiance ,religious classification or social status.

Each member of our society is encouraged to start their own business. Even if we are forced to work for a business outside of our network we must always seek to create businesses that serve the needs of our society. More importantly we must begin the gradual process of becoming independent of this system that feeds on us to sustain itself. You may think you have failed if your business does not make you wildly rich but please remember that opulent wealth and fame is a desire you have been conditioned to have. In reality great wealth makes one more responsible for creating opportunities for others to sustain themselves. It may also be that someone younger than you is inspired by your business idea and takes it further into serving a larger section of our society. Never think that what you do is unimportant. You are a piece of Allah(God). Everything you do has an unseen ripple effect across the universe.

### **Chapter 17: Full Disclosure**

The time will come when the governments of every nation will admit freely that our people did not originate on earth. It will be disclosed that we are of extra terrestrial origin and that this is a sort of prison planet for devolved gods. We are the ancient ones. We are the descendants of the beings who came from the heavens. There is much on this subject which cannot be printed at this time but the information is out there for those who earnestly seek it with an open but discerning mind. I have only mentioned these things because I do not wish to see my people surprised or dismayed when they find that our origins are not earthly. We will encounter beings from which we descended who can be described as extra terrestrial by today's terminology. Do not be alarmed. Do not be afraid. Many wonders are to come.

### **Prologue: Go Forth**

Do no harm to the peaceful. Defend the weak. Enrich the poor. Seek to free the slave and the prisoner when it is possible. Defend your house and your people to the death.
